

DESIGN DRAWING: *ANGLE, SHAPE, and LIGHT*

*Teaching artist, Rebecca Olson,
Toscana Gallery, 9040 N. Oracle Rd.*

Learning to see quiets the mind and opens the heart. Discover a fresh, new way of seeing and drawing that is right-brain and restful.

People at all levels of skill can benefit from these exercises. Even if you claim you can't draw a straight line, you can do this. We will try charcoal, graphite, and chinks, pencils, and pen and ink.

Working with still life objects we will develop basic skills and approaches that apply to figures, landscape, or whatever you can imagine. You will discover a painterly approach to making drawings that are loose yet solidly structured, lively yet balanced, and that grow naturally out of your own vision.

TWO CLASS SESSIONS
available:

(6 weeks) \$150
